

LONG RANGE RIFLE

M93

07 / 60

Long range rifle M93 is designed based on the Mauser action system, which is proven to be a precise and reliable system of bolt-action guns. Its purpose is elimination of various types of targets at large distances, up to 1800 m, in all conditions and environments.

Basic tactical and technical characteristics:

Caliber	Number of grooves	Twist rate	Barrel length	Weapon length	Weight with OS	Maximum effective range
12,7 x 108 mm	8	381 mm	1007 mm	1670 mm	16,7 kg	1800 m
12.7 x 99 mm (.50 Browning)			837 mm	1500 mm	16,3 kg	

- Long range rifle M93 is designed with two calibers: 12,7x108 mm and 12,7x99 mm (.50 Browning).
- Cold forged heavy barrel with chrome plated interior provides exceptional precision at large distances. Flutes on the barrel exterior make the cooling easier and provide precision in hard conditions.
- Handguard and stock are made of polymer, reinforced with glass fibres. Stock has absorbers that reduce the recoil effect on the shooter.

Complete set:

- Long range rifle M93
- Optical sight
- Tools
- Accessories
- Carrying case / holster
- Bag for spare tools and accessories
- Ammunition bag
- Ear protection
- Handling and maintenance manuals
